THE COMPENSATORY AFFORESTATION FUND BILL, 2015

A

BILL

to provide for the establishment of funds under the public accounts of India and the public accounts of each State and crediting thereto the monies received from the user agencies towards compensatory afforestation, additional compensatory afforestation, penal compensatory afforestation, net present value and all other amounts recovered from such agencies under the Forest (Conservation) Act, 1980; constitution of an authority at national level and at each of the State and Union territory Administration for administration of the funds and to utilise the monies so collected for undertaking artificial regeneration (plantations), assisted natural regeneration, protection of forests, forest related infrastructure development, Green India Programme, wildlife protection and other related activities and for matters connected therewith or incidental thereto.

WHERE AS the Supreme Court in its order in T.N. Godavarman Thirumulpad vs. Union of India and Others [Writ Petition (Civil) No. 202 of 1995], dated the 30th October, 2002, observed that a Compensatory Afforestation Fund be created in which all the monies received from the user agencies towards compensatory afforestation, additional compensatory afforestation, penal compensatory afforestation, net present value of the diverted forest land or catchment area treatment plan shall be deposited;

AND WHEREAS it had also been observed that the money received from the user agencies in cases where forest land diverted falls within protected areas, that is, the areas notified under the Wild Life (Protection) Act, 1972 for undertaking activities related to protection of biodiversity or wildlife shall also be deposited in the Fund;

35 of 1972

AND WHEREAS the Supreme Court has directed that, besides artificial regeneration (Plantations), the Fund shall also be utilised for undertaking assisted natural regeneration, protection of forests, infrastructure development, wildlife protection and other related activities and an independent system of concurrent monitoring and evaluation should be evolved and implemented through the Compensatory Afforestation Fund to ensure effective and proper utilisation of funds;

AND WHEREAS the Supreme Court in its judgment dated 26th September, 2005 in the said Writ Petition observed that the Fund generated for protecting ecology and providing regeneration should not be treated as a Fund under article 266 and article 283 of the Constitution;

AND WHEREAS in its direction dated the 5th May, 2006, the Supreme Court had directed that since the Government has not constituted a Compensatory Afforestation Fund Management and Planning Authority (hereinafter referred to as Authority), an *ad hoc* Authority should be constituted till the Compensatory Afforestation Fund Management and Planning Authority becomes operational and directed to centrally pool the money recovered on behalf of the said Authority lying in the States and Union territories into the *ad hoc* Compensatory Afforestation Fund Management and Planning Authority;

AND WHEREAS Central Government formulated guidelines dated the 2nd July, 2009 on the subject of State Authority for utilisation of funds lying with the *ad hoc* Authority.

AND WHEREAS in its direction dated the 10th July, 2009, the Supreme Court had directed that the guidelines and structure of the State Authority prepared by the Central Government may be notified and implemented;

AND WHEREAS in its directions dated the 10th July, 2009, the Supreme Court further directed that till an alternative system is put in place, after obtaining permission from the Supreme Court, the money towards compensatory afforestation, net present value and protected areas (national parks, wildlife sanctuaries) shall continue to be deposited in the *ad hoc* Authority;

AND WHEREAS in compliance of the directions of the Supreme Court including its order dated the 5th May, 2006, over rupees thirty eight thousand crores as collected by the State Governments and Union territory Administrations have been placed under the *ad hoc* Authority, and deposited in the nationalised banks;

AND WHEREAS absence of permanent institutional mechanism for utilisation of funds collected by the State Governments and Union territory Administrations is the main reason for accumulation of huge unspent funds in the *ad hoc* Authority;

NOW, THEREFORE, based on the above orders, directions and observations of the Supreme Court to ensure safety, security and expeditious utilisation in a transparent manner of funds accumulated with the *ad hoc* Authority and the funds to be collected by the State Governments and Union territory Administrations, it is proposed to create a National Compensatory Afforestation Fund and a National Compensatory Afforestation Fund Management and Planning Authority at the national level, and a State Compensatory Afforestation Fund and a State Compensatory Afforestation Fund Management and Planning Authority in each State and Union territory, by an Act of Parliament.

BE it enacted by Parliament in the Sixty-sixth Year of the Republic of India as follows:—

CHAPTER I

40 (3) The decision of the Central Government, whether a question is one of policy or not, shall be final.

STATEMENT OF OBJECTS AND REASONS

As the diversion of forest land for non-forestry purposes was causing loss to the valuable forests, the Forest (Conservation) Act, 1980 was enacted to maintain a rational balance between the objectives of conservation and development. The Forest (Conservation) Act, 1980 makes provision for conservation of forest and provide for the basic framework for regulating indiscriminate diversion or use of forest for the developmental needs of a State. It intends to harmonize development with that of conservation of forests and forest eco system. The compensatory afforestation envisages additional plantation activities by utilising the money deposited by the user agency for the purpose.

2. The Hon'ble Supreme Court in its order in *TN. Godavarman Thirumulpad v. Union of India* [Writ Petition (C) No. 202 of 1995], dated 30th October, 2002, observed that a Compensatory Afforestation Fund may be created in which all the monies received from the user agencies shall be deposited. The Court directed that the Fund shall be utilised for plantations, protection of forests, wildlife protection and other related activities. Presently, in compliance with the direction of the Supreme Court, all monies collected under the scheme has been placed under an *ad hoc* Compensatory Afforestation Fund Management and Planning Authority (CAMPA) and deposited in the nationalised banks.

3. The Hon'ble Supreme Court in its Judgment dated the 26th September 2005 in the aforesaid case observed that the fund generated for protecting ecology and providing regeneration should not be treated as a fund under article 266, article 283 or article 284 of the Constitution. Funds are therefore; kept outside the Consolidated Fund of India or Public Account of India. In the absence of proper institutional mechanism with adequate statutory backup amount of unspent funds has increased to more than rupees thirty eight thousand crores.

4. The Comptroller and Auditor General in its report on Compensatory afforestation in India (21 of 2013) observed that given the substantial amounts of funds being collected under the compensatory afforestation, the expenditure therefrom, the overall objectives of conservation, protection, regeneration and management of forests, conservation, protection and management of wild life and its habitats and compensatory afforestation; the clear public purpose involved in the work relating to CAMPA, there is need to review the existing paradigm of CAMPA. The Comptroller and Auditor General recommended that this should be done in a way that enhances transparency, brings CAMPA within the broader focus of both Parliament and State Legislatures and in greater public view so as to ensure the largest possible stakeholders' participation. Towards this end it would be appropriate if the amounts lying in *ad hoc* CAMPA are transferred into the Public Account. The Comptroller and Auditor General has also observed that the receipts accruing into the *ad hoc* CAMPA are essentially payments being made for the acquisition of public assets, namely, forest land for non-forest purposes by user agencies. The receipts, so arising, in essence are non-tax revenue, as are forest receipts.

5. Accordingly, to ensure safety, security and expeditious utilisation in a transparent manner of funds accumulated with the *ad hoc* CAMPA and the funds to be collected by the State Governments and Union territory Administrations it is proposed to enact a legislation, namely, the Compensatory Afforestation Fund Bill, 2015 to provide for the establishment of a Statutory Fund and a Management Authority at the National level and at each State and Union territory.

6. The Bill will provide the required legal backing for setting up of required institutional mechanism both at the Government of India and in each State and Union territory for expeditiously, and utilisation, in a transparent manner, of amounts realised in lieu of forest land diverted for non-forest purpose.

7. The Bill seeks to achieve the above objectives.
